

Dunedin Sea of Faith: some things to be thinking about over the summer

First SOF meeting for 2016

When: 3 to 5 pm, Thursday 25 February

Our topic: **Great Bible stories**

How do new generations learn the great bible stories that are part of our cultural inheritance?

Members of the group are asked to choose a story from the Bible that has particular significance for them. It might be an Old Testament event or a New Testament parable.

- How would you tell the story to a group of children in 2016?
- How would you make it relevant to them and their lives today?
- What meaning would you want them to take from it?

We will each have 3 to 5 minutes to present our story and respond to comments from the group.
